SUBJECT

Well Pollution Near Liberty Lake Dump

FROM

Jake Newland *Newland*  
Field Operations Section

TO

John Barich, Chief  
Facilities Management SectionTHRU: William Schmidt, Chief *WS*  
Field Operations Section

Attached is a copy of laboratory data for water wells in the vicinity of Spokane which were sampled in July, 1981, by the Drinking Water Branch. Please note the pollution in the (b)(6) #1 well sample. This well is near the Liberty Lake County Dump and on the slope below the dump. Also, attached is a copy of our memo dated 4-24-81 reporting pollution of the (b)(6) Well from a February 1981 sample. The pollution of this water well is brought to your attention so that the Liberty Lake Dump could be considered as a candidate for investigation or listing along with other potential hazardous waste sites.
